# Table of Contents

**Featuring:**

**10,000 PRODUCTS!!**

This year's catalog has been revised to once again lead the way over any other publication in the industry! We're proud to present an incredibly extensive 80-page display of products in full color, featuring the newest generation of R/C products - the best of the best in R/C! Over the past 22 years we've continually offered the products you need at the best prices and provide a storehouse of information for your modeling reference. This year's edition furthers the tradition, featuring thousands of items from nearly 300 manufacturers.

**Product Index and Manufacturer Index!**

To help you find exactly what you're looking for as quickly as possible, we've included both a manufacturer and a product index. See pages 282 through 285.

**Accessory Completion Guides**

Included in the airplane section is the accessory completion guide for each kit! You'll find this information useful for choosing the right accessories to get your kit in the air. Throughout the catalog, you'll find hundreds of tips, definitions, explanations, and cross-references that you'll wonder how you ever did without! R/C Modeling is a technical hobby, and we think both beginners and experts alike will appreciate the wealth of information in this catalog so that the best choices can be made for your models!

**Welcome to Radio Control**

Beginners should turn to this section for a fascinating introduction to the world of radio control. Discover planes, cars, boats, monster trucks, model selection, basic aerodynamics, building suggestions, and a complete list of items needed to get started. Turn this page and become a participant in the exciting hobby of radio control!
